BTW, on the call, someone mentioned that Aclima has hired Paul Solomon. I did not see his name anywhere on the materials, which is good. I can't recall the specific timeline, but I know he cannot represent Aclima back to EPA for some period of time post retirement – although that time period may have elapsed.

Hi Jennifer –

Was just on the call with Aclima, OP, etc regarding the Aclima proposal for EJ/Climate monitoring. I suspect you knew this, but Phil Fine (Principal Deputy Associate Administrator for OP) was on the call. Phil's background is AQ monitoring and I (and others in ORD) have worked with Phil on a variety of topics in the past – including sensor evaluation. As a follow-up to the call with Aclima, I was thinking about reaching out to him to see if he would be interested in hearing a bit more about our next generation monitoring work (sensors, satellites, fence line etc), but I did not want to overstep.

Do you see any issues with me reaching out? Or perhaps, both Bryan and I reaching out to Phil? We could also work through Chris F, if that made more sense.

I just want to be sure that Phil is aware of our work since it looks like he is working with OEJ on various aspects of implementation EJ EOs including monitoring.

Thanks.
